Advanced Knuckle Guard System

Pro-Tech 8's brand new, cut level 8, flame retardant, TPR knuckleguard system and FR Gel padded fingers for advanced back of hand protection.

Convertible Cuff

100% Kevlar® Convertible Cuff/Debris Blocker for superior protection at the vulnerable glove-sleeve interface.

Comprehensive Protection and Performance

- The TPR Gold offers advanced protection and durability with fire retardant TPR and Gel Pads in the most vulnerable areas, without sacrificing flexibility and dexterity.
- Goatskin has a high natural oil content which makes it soft, pliable and water resistant. It's more durable than cowhide, much lighter and more flexible.
- Our Porelle® double certified PTFE moisture barrier has the highest level of breathability while exceeding NFPA requirements in viral, chemical and thermal protection.

PTG-5 Rev 1 July 2021

Pro-Tech 8 Titan Pro

Certification: Structural Firefighting Gloves Compliant and Certified to NFPA 1971:2018

Features

- 8 layer knuckle guard system featuring 100% Kevlar® fused with silicone carbide
- Stays soft and maintains dexterity after use and washing
- Leather reinforced inner cuff
- Quick drying
- Leather pull tab for easy don and doff

Primary Components

- 100% Nomex inner liner
- Certified Porelle® PTFE breathable barrier
- 100% Kevlar® hi-burst thread throughout
- Water-resistant fire-retardant suede goatskin leather reduces water absorption

Short Cuff: Model # PT8-TNSC • **Long Cuff:** Model # PT8-TNLC • **Sizes:** 64N, 70N, 70W, 76N, 76W, 82N, 82W*

Pro-Tech 8 Titan-K Pro

Certification: Structural Firefighting Gloves Compliant and Certified to NFPA 1971:2018

Features

- 100% FR kangaroo leather, stronger, more durable and water resistant than any other leather
- All the features of the Titan + model

Primary Components

- The only NFPA compliant structural firefighting glove with a 100% kangaroo outer shell
- Certified Porelle PTFE breathable barrier
- All other components same as the Titan model

Short Cuff: Model # PT8-TNKC • **Sizes:** 64N, 70N, 70W, 76N, 76W, 82N, 82W*

Pro-Tech 8 Fusion Pro

Certification: Structural Firefighting Gloves Compliant and Certified to NFPA 1971:2018

Features

- Certified Porelle® PTFE for blood borne pathogen/liquid resistance
- 8 layer knuckle guard system featuring 100% Kevlar® fused with silicone carbide
- Stays soft and maintains dexterity after use and washing
- Leather pull tab for easy don and doff

Primary Components

- 100% Modacrylic knit innerliner
- 100% Kevlar® hi-burst thread throughout
- Water-resistant fire-retardant suede goatskin leather
- Certified Porelle® PTFE breathable barrier.

Short Cuff: Model # PT8-SC • **Long Cuff:** Model # PT8-LC • **Sizes:** 64N, 70N, 70W, 76N, 76W, 82N, 82W*

Pro-Tech 8 TPR Gold

Certification: Structural Firefighting Gloves Compliant and Certified to NFPA 1971:2018

Features

- Cut Level 8 fire retardant TPR knuckle guard system provides superior cut resistance and radiant heat protection
- NFPA 1971 compliant PTFE fire retardant moisture and blood borne pathogen barrier
- Flexible finger sidewalls of Kevlar® and Nomex® maximize dexterity
- Full Kevlar convertible cuff

Primary Components

- Certified Porelle PTFE breathable barrier
- 100% Modacrylic inner liner
- FR Gel Padding on palm and thumb
- Kevlar and Goat Leather outer shell
- Reflective FR yellow stripe

Model # PT8-TPRG • **Sizes:** 64N, 70N, 70W, 76N, 76W, 82N, 82W*

Pro-Tech 8 Wildland

Certification: Wildland Firefighting Gloves Compliant and Certified to NFPA 1977:2022

Features

- Designed to withstand the effects of flame, heat and sharp objects
- Inner liner sewn in at each fingertip
- Elastic cuff band to prevent debris from entering

Primary Components

- Full grain cowhide suede or smooth leather
- Knitted Modacrylic inner liner
- 100% Kevlar® hi-burst thread throughout

Model # PT8-W • **With Debris Blocker:** Model # PT8-WDB • **With Knit Wristlet:** Model # PT8-WK • **Sizes:** XS-3XL*
